- OPR is available for testing.
- TSX listed symbols use production CBBO for reference price.
- Venture listed symbols use production CL1 for preference price.
- Venture listed symbols in table have static reference prices.
- Please contact Omega to arrange for bundle set-up with other marketplaces for routing.

Subscribers wishing to test the OPR re-price or cancel functions on Omega can use the following methods. For TSX listed securities, subscribers can use the production CBBO for reference prices to mimic the behavior in a production environment. For Venture listed symbols, subscribers can use the CL1 for reference prices, or alternatively, use the following symbols at the specified static price.

| Symbol | Bid | Offer |
|--------|-------|-------|
| SMN | $0.44 | $0.50 |
| ALE | $0.77 | $0.80 |
| HAT | $2.00 | $2.50 |
| PCT | $0.25 | $0.26 |
| AAT | $0.03 | $0.05 |
| CEY | $0.05 | $0.08 |

For subscribers wishing to test routing functionality, please contact Omega support so we may arrange for bundles with other marketplaces.
